

ECO PRINT SHIELD

BEST FOR CANVAS

Non-Yellowing • Non-Cracking Formula • Environmentally Friendly

PremierArt™ Eco Print Shield is a revolutionary new water based protective coating designed specifically for water resistant inkjet media. Its advanced polymer technology will not yellow or crack under stretching, and will never go brittle. Eco Print Shield protects all instant dry inkjet media from moisture, light, humidity, atmospheric contaminants, abrasion and even fingerprints. This ecologically friendly protective coating is available in a Gloss, Satin and Matte finish.

No need to use solvent coatings again!

Until now, only harmful solvent based coatings were used to protect inkjet prints. This revolutionary water based coating now allows you to replace your solvent based system with a ecologically friendly product. Eco Print Shield's unique advanced formula was designed for instant dry inkjet media. Eco Print Shield will double the print life of PremierArt Water Resistant Canvas for Epson. Chart on back. It is easily applied using a brush or roller, or can be sprayed using a HPLV spray gun.

SPECIFICATIONS

Base Composition	Aqueous
Non Yellowing	Yes
Lightfastness	Increase Over 2X
Water Resistant	Yes
Ozone Resistant	Yes
Non Cracking Formula	Yes
Surfaces	Gloss, Satin, Matte
V.O.C. Requirements	Exceeds

FEATURES	BENEFITS	COMMENTS
Water Based	No volatile solvents	This product is not only environmentally friendly, but there is virtually no odor, compared to solvent coatings.
Non-Cracking Formula	Easy stretching	This unique coating solves the cracking issue of inkjet canvas when stretched.
Non-Reactive	Compatible with HP & Epson® Ink	Some coatings are actually incompatible with HP and Epson ink.
Ozone and Water Resistant	Excellent print protection	Will protect the print from incidental water/humidity contact as well as atmospheric contaminants.
Non-Yellowing Formula	Longer lasting prints	Many coatings actually accelerate yellowing. This formula will not prematurely yellow.
Abrasion Resistant	Reduces scuffing	Matte black ink in particular is very prone to scuffing. Eco Print Shield seals the ink for easier handling.
Non-Toxic	No toxic residue	Meets V.O.C. requirements.

Application:

Eco Print Shield may be applied by roller, brush or High Velocity, Low Pressure, spray gun. HVLP spray guns are very efficient in application, and are easy to use. These systems are highly recommended for production environments, and are available from Premier Imaging Products.
